

The UAF Staff Council passed the following Motion (#2011/216/1) at Meeting 216 on April 20, 2011.

Staff have requested Google Apps for departmental accounts for departmental use. The problem OIT presented with departmental accounts is their use of shared credentials. Reportedly staff were informed that there was no current solution and that a decision

transition to Google Apps. The problem OIT presented with departmental accounts is their use of shared credentials. Reportedly staff were informed that there was no current solution and that a decision

Rationale:

I have a great appreciation for input from all staff regarding University policies, procedures and
